## SKILLS

---

**Programming Languages:** Java, JavaScript

**Frontend:** HTML5, CSS3, React

**Backend:** Spring, Spring Boot, JDBC, REST API

**Databases:** MySQL

**Core subjects:** OOPS, Computer Networks, DBMS

## PROJECTS

---

**Assured Contract Farming System for Stable Market Access**

**June 2025 – Present**

*Python, Django, MySQL, HTML/CSS, Secure Payment Integration*

- Built a digital contract farming platform where farmers can list and manage crops, and buyers can browse, place orders, and procure agricultural products directly.
- Developed backend modules using **Django** for farmer and buyer authentication, crop inventory management, order approval/rejection, secure payment handling, and optimized database operations.
- Enhanced the user interface with structured navigation, reusable UI components, and real-time order and payment updates to improve transparency and overall user experience.

## INTERNSHIP

---

**Full Stack Developer Intern – SmartBridge (APSCHE)**

**April 2025 – July 2025**

- Developed and deployed full-stack web applications using **MongoDB, Express.js, React, and Node.js (MERN)**, following modular and scalable architecture principles.
- Built backend APIs with Node.js and Express, implemented authentication, handled database operations, and ensured secure data flow between client and server.
- Designed responsive React components, improved application performance, and enhanced overall user experience through efficient state management.

## ACHIEVEMENTS

---

- **AINCAT 2025** — Participated in India biggest career aptitude test conducted by Nukri campus .

## EDUCATION

---

**Siddharth institute of engineering and technology**

**Nov 2022 – Jul 2026**

*BTech in Electronic communication of Engineering, CGPA: 8.61*

*Puttur, India*
